```

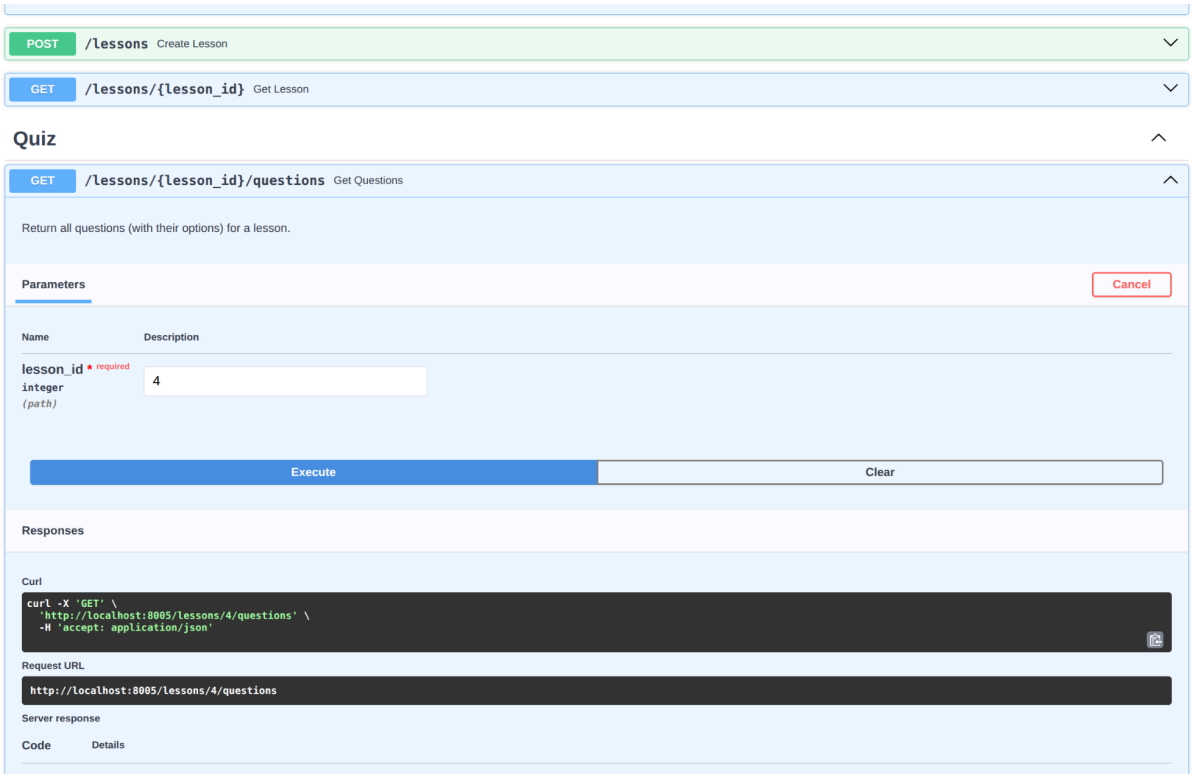
CLicking on lessons, by giving the course_id,
HEre chosen 4: Analytical reasoning

PUTPUT:

[
 {
  "id": 4,
  "course_id": 4,
  "title": "Core Concepts of Analytical Reasoning",
  "content_text": "This lesson introduces the foundational concepts of Analytical Reasoning. Students will explore key principles and apply them through structured exercises. The easy difficulty exercises help build cognitive skills progressively.",
  "image_url": null
 }
]



Get the lesson_id from the above course and paste it to get the questions

OUTPUT:

[
 {
  "id": 5,
  "question_text": "Which of the following best describes a key concept in Analytical Reasoning?",
  "difficulty": "easy",
  "question_type": "mcq",
  "image_url": null,
  "options": [
   {
    "id": 17,
    "option_text": "Systematic analysis of patterns",
    "option_image_url": null
   },
   {
    "id": 18,
    "option_text": "Random guessing",
    "option_image_url": null
   },
   {
    "id": 19,

```
      "option_text": "Memorization without understanding",
      "option_image_url": null
    },
    {
      "id": 20,
      "option_text": "Ignoring logical structure",
      "option_image_url": null
    }
  ]
},
{
  "id": 6,
  "question_text": "At easy difficulty, what strategy is most effective for Analytical Reasoning?",
  "difficulty": "easy",
  "question_type": "mcq",
  "image_url": null,
  "options": [
    {
      "id": 21,
      "option_text": "Break problems into smaller parts",
      "option_image_url": null
    },
    {
      "id": 22,
      "option_text": "Work on all parts simultaneously",
      "option_image_url": null
    },
    {
      "id": 23,
      "option_text": "Skip difficult steps",
      "option_image_url": null
    },
    {
      "id": 24,
      "option_text": "Rely only on intuition",
      "option_image_url": null
    }
  ]
}
]
```

Note the question id and the correct option id

POST /submit-answer Submit Answer

Submit an answer to a question. Returns whether the selected option is correct.

Parameters Cancel Reset

No parameters

Request body required application/json

Edit Value | Schema

```
{
  "question_id": 5,
  "option_id": 17
}
```

Execute Clear

Responses

Curl

```
curl -X 'POST' \
  'http://localhost:8005/submit-answer' \
  -H 'accept: application/json' \
  -H 'Content-Type: application/json' \
  -d '{
  "question_id": 5,
  "option_id": 17
}'
```

Request URL

```
http://localhost:8005/submit-answer
```

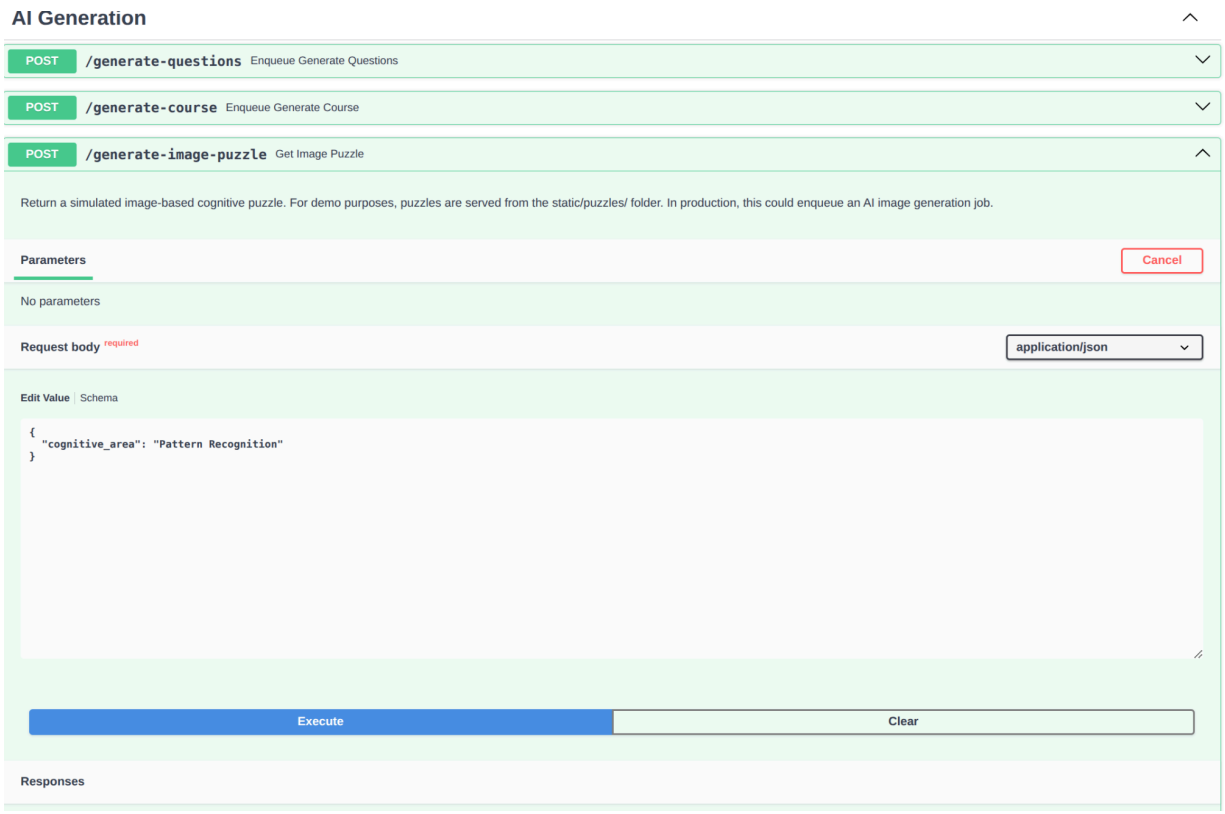
Server response

Code	Details
200	Response body

```
{
  "is_correct": true,
  "message": "✅ Correct! Well done."
}
```

Download

Paste it and u get the correct answer prompt of correct or wrong answer if wronged



Can also generate pattern recognition with this endpoint

OUTPUT:

```
{
  "puzzle_id": 1,
  "cognitive_area": "Pattern Recognition",
  "question": "Which image completes the pattern?",
  "image_url": "/static/puzzles/pattern1.png",
  "options": [
    {
      "id": "a",
      "image_url": "/static/puzzles/opt_a1.png"
    },
    {
      "id": "b",
      "image_url": "/static/puzzles/opt_b1.png"
    },
    {
      "id": "c",
      "image_url": "/static/puzzles/opt_c1.png"
    },
    {
      "id": "d",
```

"image_url": "/static/puzzles/opt_d1.png"
}
]
